### AFTER BERGDOLL GOLD.

Action Taken by the Alien Property Custodian.

Washington, Sept. 12.—The government is going after the famous Bergdoll "pot of gold."

Thomas W. Miller, alien property custodian, announced yesterday that a complaint has been prepared demanding of Mrs. Emma C. Bergdoll, mother of Grover Cleveland Bergdoll, as attorney in fact for her son, all property in which he held any interest, including gold coin taken from the Treasury before the draft evader escaped from federal authorities and fled to Germany. Demand was made on Mrs. Bergdoll last

May for delivery of all property belonging to her son in which he had any interest, Mr. Miller said, but despite repeated extensions of time allowed Mrs. Bergdoll the property had not been turned over to the government. This, he added, made it necessary to take the action planned.

Under the terms of the peace resolution signed by the President on July 2, he said, all demands made before that date by the alien property custodian in accordance with the law were enforceable.
